

GitHub Instructions

Collaborate Github Username: **asianhack023**

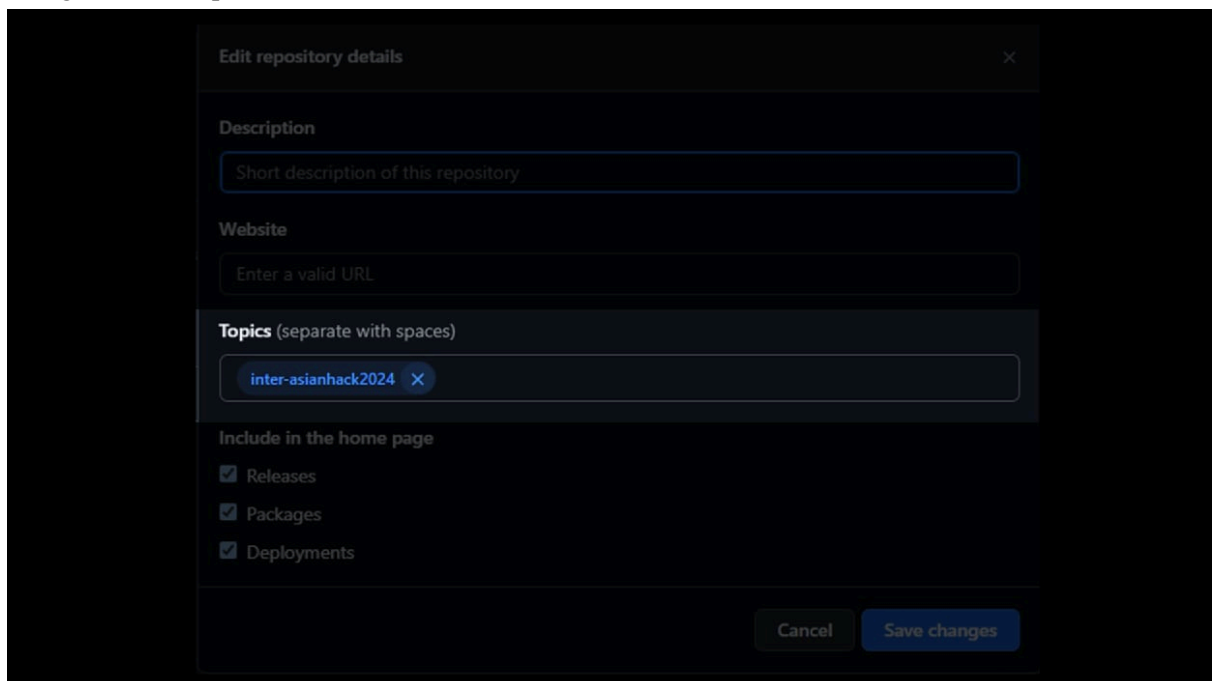

Push code into github with the repository name of your team name

Add topics:

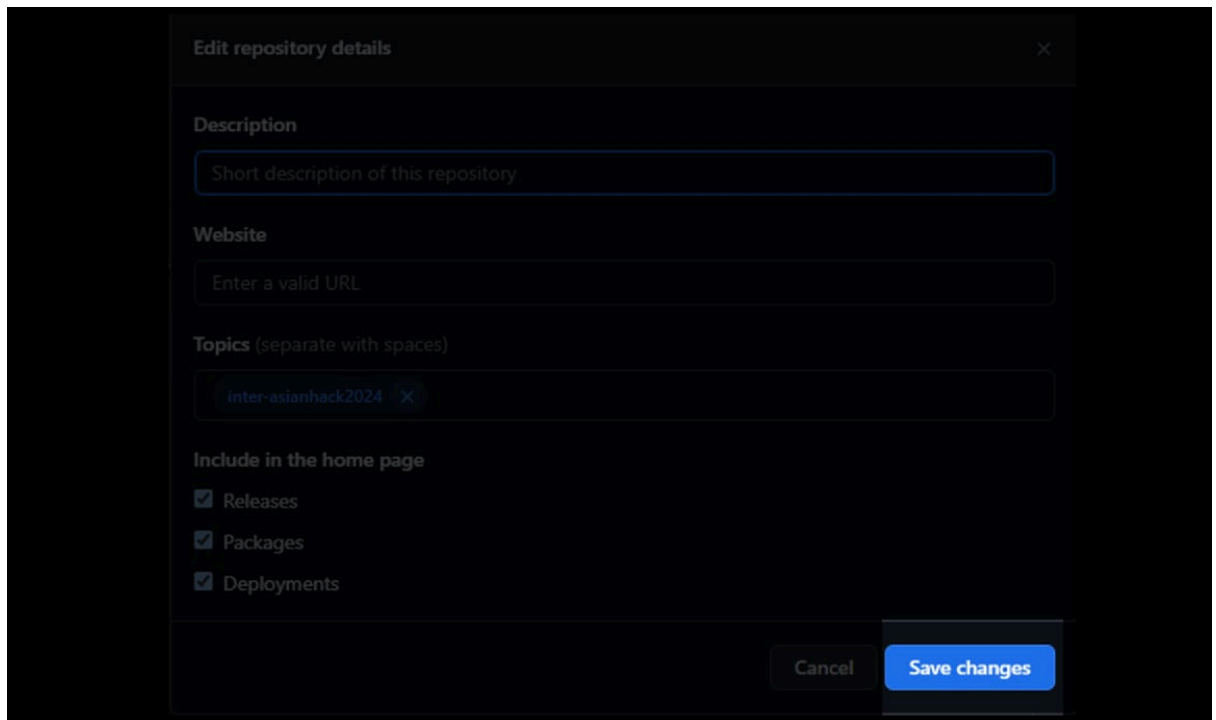

- 1) Find the settings icon in your repository.

- 2) Navigate to the topics section and add as **inter-asianhack2024**

3) Save the changes

The screenshot shows a dark-themed dialog box titled "Edit repository details" with a close button (X) in the top right corner. The dialog contains several input fields and checkboxes:

- Description:** A text input field with the placeholder text "Short description of this repository".
- Website:** A text input field with the placeholder text "Enter a valid URL".
- Topics (separate with spaces):** A text input field containing the topic "inter-asianhack2024" with a small 'X' icon to its right.
- Include in the home page:** A section with three checked checkboxes: "Releases", "Packages", and "Deployments".

At the bottom right of the dialog, there are two buttons: "Cancel" and "Save changes".

4) The About section should be displayed as:
